Gobalakrishnan Ganesan

Kumbakonam, Thanjavur district, TN - 612001

Mobile No. : (+91) 76959 85963, Email : a.g.gobalakrishnan@gmail.com

Objectives

Motivated and detail-oriented individual with a strong foundation in React.js, JavaScript, and front-end web development. Seeking an entry-level developer position to apply my skills in building dynamic and user-friendly web applications while expanding my technical expertise in a collaborative environment.

Education

Bachelor of Commerce

Government Arts College

2020-2023

Technical Skills

- **Programming:** React.js, JavaScript, HTML5, CSS3
- **Development Tools:** Visual Studio Code, Git, GitHub
- **Other Skills:** Problem-solving, Debugging, Responsive Design

Projects   github.com/gobalakrishnan23

- **QR Code Generator**
  - Built a QR Code generator with React.js to create and download QR codes for text or URLs.
  - Made it responsive for easy use on all devices.
- **Advice App**
  - Created an Advice App using React.js to fetch and display random advice from a public API.
  - Designed a simple, user-friendly interface for smooth interactions.
- **Weather App**
  - Developed a weather app in React.js to show real-time weather data using a public API.
  - Added a search feature for location-based weather details with a clean, responsive design.
- **Monthly Calendar App**
  - Built a monthly calendar app in React.js to view and select dates.
  - Added features to display notes or events for selected dates.
- **Currency Converter**
  - Created a currency converter in React.js using a public API for live exchange rates.
  - Included options for selecting base and target currencies with instant results.

Additional Information

- Enthusiastic about learning new technologies and frameworks like TypeScript, Node.js, and Redux
- Open to freelance or part-time opportunities to gain hands-on experience.
